2026. 7. 22 (화)

정부, 사이버 보안 특화 인공지능 기초 모형(파운데이션 모델)

민관 협력으로 국내 인공지능과 보안기술 역량을 결집하여 '사이버 보안 특화 인공지능(AI) 기초 모형(파운데이션 모델)' 개발을 위한 그래픽 처리 장치(GPU)

국내 역량 있는 1개 참여팀을 선정하여 국내 독자 보안 특화 인공지능(AI) 개발을 위한

[관련 국정 과제]

21. 세계에서 가장 인공지능 잘 쓰는 나라 구현
23. 국민의 안전과 보편적 삶의 질 제고

과학기술정보통신부(부총리 겸 과기정통부 장관 배경, 이차 과기정통부)는 정보통신산업진흥원(원장 박윤규)과 함께 국내 인공지능과 보안기술 역량을 결집하여 '사이버 보안 특화 인공지능(AI) 기초 모형(파운데이션 모델) 개발' 사업 공모(7.22.~8.21.)에 착수한다.

Government Launches Open Call for "Development of a Cybersecurity-Specialized AI Foundation Model" Project

Through public-private cooperation, GPU computing resources will be provided to combine Korea's domestic AI and security technology capabilities for the development of a cybersecurity-specialized AI foundation model.

One capable domestic consortium will be selected, in a bid to secure a homegrown cybersecurity AI model

[Related national policy tasks]

21. Becoming the country that uses AI best in the world
23. Realizing an AI-based society that raises public safety and quality of life
